Guides & Markers' Duties in Company, Battalion, and Brigade Drill 2 0

"Messrs. Gale & Polden, of Chatham, who are coming to the front as the *bona-fide* service publishing Company, have issued a number of military handbooks in a portable form, of which *Guides and Markers' Duties*, by Sergt.-Major Gordon, is a fair specimen. The book is intended to enable guides and markers to perceive the posts assigned to them, sparing them waste of time in the perusal of each section, and ever-recurring references which are made to preceding sections, &c., during the explanation of movements in the Field Exercise. The places assigned to guides and markers are given in well executed Plates, with the description of each movement, rendering each intelligible in itself."—*Army & Navy Gazette*.

Company Squad Roll Book. We are selling thousands of this Company Pocket Roll Book annually, and can justly say it is by far the best, cheapest, and most complete Squad Book ever published **1 0**

Catechism of Military Training. By Major H. FITZ-ROY MARRYAT, The Berkshire Regt. **2 0**

"In which a course of instruction for the Military Training of Soldiers is laid down. Its distinctive features are: that a course of instruction is divided into four weeks, that it is in the form of a Catechism, that it contains numerous diagrams, and that its price is Two Shillings. The work is not only remarkably cheap, but what is more to the purpose, its accuracy may be relied on, seeing that the Author has spared no pains to ensure correctness in every detail. To Officers and Non-commissioned Officers this Catechism should be especially welcome."—*Broad Arrow*.

P R E F A C E .

ENDEAVOURS have been made in this little Book to give examples of how to Practise Physical Drill on the Barrack Square; to facilitate this, the Author has added at the end 26 Plates, giving the various Principal Positions throughout the Drill.

It will be found advisable for the Kersey to be left open a few buttons from the bottom, and the Glengarry to be put firmly on the head.

THE AUTHOR.

February, 1889.

PHYSICAL TRAINING.

In order to expand his chest, and develop his muscles, the soldier will be practised in the following exercises.

The squad having been dressed, as described in S. 3, will be ordered to number from the right. Two lines will then be formed, the odd numbers taking a pace to the front, and the even numbers a pace to the rear as described in S. 24, Infantry Drill, Part I.

EXERCISE I. CAUTION.—*Swinging the Arms.*

One. { Throw the arms up, perpendicularly;
palms of the hands turned inwards,
and not wider than width of shoulders.
(See Plate I).

Two. { Swing the arms freely to the rear,
round to the front, and up again. Repeat
this six times; the sixth time, instead
of completing the circle, strike the
palms of the hands together behind the
back, and remain steady. (See Plate II).

Three. { Bring the arms to the sides and
resume the position of attention.

In this exercise, the first and second motions may be repeated, by giving the command *Continue the*

Motion ; the squad will then take the time from the right-hand man ; on the word *Steady*, the men will remain in the second position, and on the word *Three* they will resume the position of attention.

EXERCISE II.

CAUTION.—*Bending and Stretching the Body.*

First Practice.

- | | | |
|-------------|---|--|
| <i>One.</i> | { | Keeping both arms straight, raise the right hand as high as possible, turning the back of it inwards, and reach down with the left hand, arm close to the body ; shoulders square to the front, back hollowed, body well bent over to the left at the waist, eyes directed to the right hand. (See Plate III). |
| <i>Two.</i> | { | Perform the same motion, but with the left hand raised, right lowered, body bent to the right. |

CAUTION.—*Second Practice.*

- | | | |
|-------------|---|--|
| <i>One.</i> | { | (To be given when the left hand is raised.)—Swing the left hand keeping it near the body, palm inwards, by a circular motion sideways to the right, and as it comes level with the right hand, raise both hands over the head, backs towards the face ; body turned on |
|-------------|---|--|

the hips to the right and inclined over to the left, head thrown back, eyes directed to the hands. (See Plate IV).

Two. { Swing both arms down by the front, close to the body, and up to the same position as before, but to the left.

CAUTION.—*Third Practice.*

(To be given when the hands are above the head on the left).—Carry the right foot 12 inches to the right, round the back, bend quickly down, and touch the toes with the tips of the fingers, keeping the knees straight. (See Plate V).

One. {

Straighten the body, bringing the tips of the fingers to the nipples of the breast, elbows close to the sides. (See Plate VI).

Two. {

Throw the arms above the head, palms of the hands to the front, bending back the head and the upper part of the body, eyes directed to the hands. (See Plate VII).

Three. {

Bring the fingers to the breast as directed in "Two;" body upright.

Four. {

CAUTION.—*Fourth Practice.*

(To be given when the hands are

above the head). Turn the body from the hips, swing the hands down by a circular sweep to the left, by a circular sweep to the right, up to the right, as in the "Second Practice"; feet apart, knees braced back, rising up on the toe of the left foot, the right foot kept firm on the ground. (See Plate VIII).

Two. { Perform the same motion to the left, rising on the toe of the right foot.

Three. { Close the heels, the right heel being brought back to the left, and drop the hands to the sides, resuming the position of attention.

When performed to music, each of the above practices will be repeated eight times before the next is commenced; otherwise the instructor will specify the number of times each practice is to be repeated.

EXERCISE III.

CAUTION.—*Bending and Stretching the Arms.*

One. { Keeping the elbows close to the sides, quickly bend the arms, hands in line with the shoulders and forced back, hands closed, nails to the front. (See Plate IX).

{ Opening the hands and turning the

Two. { backs upwards, shoot them out right
and left, in line with the shoulders,
thumbs close to the forefingers. (See
Plate X).

This being the exact opposite of the last movement, the arms must be stretched out as far as possible.

One. { Return to the first position, closing
the arms to the sides.

Three. { Open the hands, palms to the
front, throw the arms up perpendicu-
larly above the shoulders, the whole of
the upper part of the body stretched
upwards. (See Plate XI.)

One. As before.

Four. { Bring the arms smartly to the sides
and resume the position of attention.

Care must be taken that in these movements the body and head are retained in the position of attention.

EXERCISE IV.

CAUTION.—*The Lunge.*

{ Make a partial turn to the right so that
the right foot points to the right ; by a
second movement, bring the back of the
left heel against the inside of the right,
and place the feet at right angles to

Ready. { each other, head erect, eyes directed to the front, shoulders pressed back and chest advanced; at the same time place the hands on the hips, fingers to the front, thumbs to the rear, elbows forced back. (See Plate XII.)

Engage. { Draw back the right foot about 18 inches; the body to be balanced upon both feet, the heels in line with each other, both knees bent and kept well apart directly over the feet, hips pressed to the front; raise the left foot, and beat it smartly on the ground. (See Plate XIII.)*

Lunge { Step about 18 inches to the front with the left foot, straightening the right leg and pressing the right hip forward, the left knee perpendicular to the instep, right foot flat upon the ground, still keeping the body upright and the head erect. (See Plate XIV.)

*When teaching recruits the Engage, it is suggested that it be done by numbers as follows:—

1.—Draw back the right foot 18 inches, keeping both legs straight, the heels in line with each other.

2.—Quickly bend both knees until they jut over the toes, forcing them well apart, the body equally balanced on both feet, hips pressed to the front.

3.—Raise the left foot, and beat it smartly on the ground.

Engage. { Return to the "Engage" by bending the right knee, and drawing back the left foot.

About. { Turn to the right about upon the heels, the right foot pointing to the proper rear, the left foot to its left.

Lunge. As before, but with the right foot.

About. { In one quick movement raise the toes and reverse the position of the legs, by turning about on the heels, right leg straight, left knee bent, then lower the toes to the ground.

Engage. As before.

Ready. Return to the "Ready" position.

Front. { Turn to the front and resume the position of attention, dropping the hands to the sides.

N.B.—The Third Exercise will be combined with this in the position of the lunge. The words are given after the word "Lunge," and the hands placed on the hips on the word "Four."

EXERCISE V.

CAUTION.—*Bending and Stretching the Knees.*

{ Keeping the body upright, smartly

- One.* { raise the hands and place them on the
 { hips, fingers to the front, thumbs to the
 { rear, elbows and shoulders forced well
 { back. (See Plate XV.)
- Two.* { Rise on the toes as high as possible,
 { legs straight.
- Three* { With the head erect and the elbows
 { to the rear, gradually lower the body by
 { bending the knees, until sitting on the
 { heels, which latter must, as far as
 { possible, be kept together, forcing the
 { knees well apart. (See Plate XVI.)
- Two.* { Straighten the knees, still remaining
 { on the toes.
- Four.* Lower the heels to the ground.
- Five.* { Drop the arms quickly to the sides,
 { and resume the position of attention.

In numbers "Two" and "Three" the body must be kept upright.

All the motions except "one" and "five" are to be performed slowly.

EXERCISE VI.

(Exercises II. and IV. combined.)

CAUTION.—*First Combined Practice.*

(Place the left hand on the hip, fingers

Right—

Lunge.

to the front, thumb to the rear; make a quarter right turn and keeping the left foot firm on the ground, and the left leg straight, step out about 36 inches to the right, right lower leg perpendicular, knee over the instep, body turned to the right, and bent from the hips backwards; at the same time raise the right hand over the head, arm straight, head thrown back, eyes directed to the back of the right hand. (See Plate XVII.)

Two.

{ Without bending the left leg, drop the right hand to the side and spring to the position of attention.

Front—

Lunge.

{ Make a quarter left turn and lunge to the front as directed for the "Right Lunge" but with both hands raised about the width of the shoulders. (See Plate XVIII.)

Two.

{ Recover as before, but in bringing the hands down, throw them to the rear with a semi-circular sweep and resume the position of attention.

Left—

Lunge.

{ Make a quarter left turn and lunge as before, stepping out with the left instead of the right foot.

Two. { Spring back to the position of attention, as from the "Right Lunge."

The squad will also be taught to commence lunging with the left foot.

This exercise may be continued by giving the caution *Judging the Time*; on the command *Right Lunge* all the foregoing movements will be repeated as often as required; or if the command *Left Lunge* is given, the left leg will be used in lunging to the left and to the front.

EXERCISE VII.

CAUTION.—*Working the Shoulders. First Practice.*

One. { Raise the upper arms level with the shoulders, at right angles to the body, elbows forced to the rear, arms bent, hands clenched and close to the shoulders, the fore-arm directly over the upper.
(See Plate XIX.)

Two. { Straighten the arms, keeping them level with the shoulders, hands open, palms upwards.

CAUTION.—*Second Practice.*

One. { Throw the arms to the front, in line with the shoulders, and strike the palms of the hands lightly together.
(See Plate XX.)

Two. { Draw the elbows quickly to the rear, bending the arms, hands clenched and close to the shoulders, knuckles turned up, chest expanded, head erect. (See Plate XXI.)

CAUTION.—*Third Practice.*

One. { Step out to the right, as directed for “Right Lunge,” but with the body inclined forward and strike out freely from the shoulder with the left fist, instead of throwing the right hand above the head. (See Plate XXII.)

Two. { Draw the left hand quickly back as far as possible, keeping it close to, and about in line with, the nipple of the breast, at the same time hit out with the right fist as directed for the left in “One.”

CAUTION.—*Fourth Practice.*

One. { Raise the toes and, by a quick movement, turn to the left on the heels, reversing the position of the legs, viz., the left knee bent, right leg straight, and hit out as before, but with both fists at the same time. Care must be taken to exert as much force in drawing the hands back as in striking out.

or as follows :

- | | | |
|---------------|---|---|
| <i>About.</i> | { | Draw back the right hand, raise the toes, and by a quick movement turn about on the heels, reversing the position of the legs, viz. : the left knee bent, right leg straight, keeping the hands closed. |
| <i>One.</i> | { | Hit out with both fists, the body being inclined well forward in so doing. |
| <i>Two.</i> | { | Withdraw the hands, elbows well to the rear. |
| <i>Three.</i> | { | Bring the right foot quickly back to the left, and resume the position of attention. |

When performed to music, each of the above practices will be repeated sixteen times before the next is commenced; otherwise the instructor will specify the number of times each practice is to be repeated.

EXERCISE VIII.

(Exercises IV. and VII. combined.)

CAUTION.—*Second Combined Practice.*

- | | | |
|---------------|---|--|
| <i>Lunge.</i> | { | Turn to the right and lunge out as directed in the "First Combined Practice," but throwing the arms right and left in line with the shoulders as the lunge is made; hands open, fingers close together, palms upwards, shoulders |
|---------------|---|--|

- forced back, body upright. (See Plate XXIII.)
- Two.* { Spring up from the right foot, and close the heels, feet at right angles, body still turned to the right, arms extended but brought to the front of the body, palms of the hands touching. (See Plate XX.)
- Lunge.* { Turn again to the right and repeat as before.

The squad will also be taught to lunge with the left foot.

This practice may be continued by giving the caution *Judging the Time*; followed by the command *Lunge*.

When performed to music eight lunges will be made as above, which will bring the squad to the original front; and on the word "Change," eight lunges will be made with the left foot.

- Three.* Resume the position of attention.

EXERCISE IX.

CAUTION.—*General Practice.*

- One.* { As directed for "Swinging the Arms."
(See Plates I. and II.)
- Two.* { As directed for "Swinging the Arms," except that the arms are to be swung four instead of six times.

Ready. { Bring the hands to the shoulders, tips of the fingers lightly touching them, elbows close to the sides and forced to the front. (See Plate XXIV.)

*Right—
Lunge.* { Lunge out quickly to the right, as in “Right Lunge,” throwing the right hand out to the right, in line with the forehead, the left hand in line with the hip, arms straight, palms of the hands turned upwards, eyes directed to the right hand. (See Plate XXV.)

Ready. { Spring up from the right foot and, without bending the left leg, resume the “Ready” position.

*Left—
Lunge.
Ready.* { As directed for “Right Lunge,” substituting left for right.
As before.

Three. { Force the arms straight above the shoulders, hands open, palms inwards, rising as high as possible on the toes. Repeat this three times; the third time remain on the toes with the hands above the head.

Four. { Bend the knees (as in “Three” “Bending and Stretching the Knees,”) but keeping the arms still above the head.

- Five.* { Spring up quickly off the ground, straightening the knees and separating the feet as they quit the ground. Drop to the ground again with the feet 20 inches apart, the toes being the first to meet the ground, arms still straight above the head. (See Plate XXVI.)
- Six.* { Slightly bend the knees, round the back, swing the arms between the legs, and, without a pause, raise them above the head again, jump off the ground as they ascend, drop with the heels close together, and resume the position of attention.

When this has been well practised by numbers, the words of command are simply "Ready" and "Away." The whole of the exercises will then be performed as often as necessary. On the word "Steady," the hands will be dropped to the sides, the squad remaining at attention.

PRACTICE WITH MUSIC.

When these Exercises are practised to music the following will be observed:—

Ex. II. to an air in common time.

Ex. VI. to an air in common time, the beats of the bars marking the lunging and recovering.

Ex. VII. to an air in $\frac{6}{8}$ time.

Ex. VIII. to a slow march.

For Ex. VI. and for the third and fourth practices of Ex. VII., an air with a chorus should be chosen, and the men may sing the chorus. They may sing during the whole of Ex. VIII.

Official Letter Writing, Orders, &c., Guide to.

By an Army Schoolmaster. In this work are compressed, concise, yet full directions, not only upon Official Letter Writing and Orders, but also upon Handwriting, Style of Composition; Punctuation, Précis Writing, Military Abbreviations and Relative Rank, together with such business terms as are, or may be, applicable to Military life. To those whose duties acquire an acquaintance with clerical work of any kind it can be confidently recommended 1 6

Company Drill Made Easy, with copious diagrams, in accordance with "Field Exercise." 1 0

"The direction of all ranks, and explanation of the words of command are clear and concise."

Battalion Drill Made Easy (illustrated), in accordance with Field Exercise. 3rd Edition By Sergeant-Major W. Gordon, Scots Guards 2 0

"It is so clear and simple, and leaves nothing to be imagined by the student, as every single movement in Battalion Drill is explained under all the various positions."—*Army and Navy Gazette*.

Military Sketching Made Easy, and Military Maps Explained. By Major H. D. HUTCHINSON, B.S.C., Garrison-Instructor. Fully Illustrated with Plain and Coloured Plates, cloth ... 4 0

"This useful work, besides conforming in every way to the official Textbook of Military Topography, aims at being more explicit and explanatory than this latter on the various points dealt with. In this, the Author has succeeded."—*Royal Engineers' Journal*.

Battalion Drill Made Easy (illustrated), in accordance with Field Exercise. By William Gordon, 2nd Battalion Gordon Highlanders (late Sergeant-Major, 2nd Battalion Scots Guards) 2 0

"In the Field Exercise, references are continually made to preceding paragraphs. The result is confusing and troublesome. Mr. Gordon to obviate this blemish has produced the work before us. The fact that it has reached a third edition, proves that it has supplied a want long felt. Mr. Gordon has performed his task well, and we venture to assert that an officer or non-commissioned officer who masters this book has practically absorbed the essence of battalion drill. In size the book is handy, and in price cheap, the cost being only Two Shillings." — *Colburn's United Service Magazine*.

Sergeant's Pocket Book for Home and Foreign Service. By Sergt.-Major W. GORDON, late Scots Guards. Illustrated, cloth 2s.6d., leather ... 3 6

"Quartermaster Gordon has done for the Non-commissioned Officer what Lord Wolseley has done for the Officer, in compiling a work which contains the cream of a large number of standard books on practical military subjects. Mr. Gordon is modest, and seldom gives his own views, preferring to quote those of acknowledged authorities."—*United Service Magazine*.

Drill Cards—Recruit or Squad Drill, Part I. ... 0 2
 " " **Company Drill, Part II. ... 0 2**

These Cards are printed and published for the pocket, with cloth backs, and are very useful for prompting.

All Military Books are obtainable Post Free from the
 Printers, Gale and Polden, Brompton Works, Chatham

On Guard Writing Companion, made in Leather, with pocket to hold Guard Reports. Army Forms, and Foolscap; and fitted with Blotting Paper, Penholder, Pen and Pencil 2 6

This is the most useful Stationery Case ever made for the Army. For compactness, finish and strength, it is very ingenious. It can be put in a valise or be folded up with the great coat. For Non-commissioned Officers on guard, in the field, or on board ship, it will be found invaluable.

On Guard ; What to do and How to do it 0 6

"A useful little handbook, the very thing that the young and inexperienced stand in need of, arranged by Capt. M. QUAYLE-JONES, 6th Royal Warwickshire Regt., has been forwarded to us for notice. A more concise and better guide could not have been compiled. Every Officer will remember the fear and tremor in which he stood when the startling cry of 'Guard turn out!' first broke upon his ears, and will, although smiling at the recollection reflect to himself that the instructions contained in the Queen's Regulations and on the board of orders of the guard-room were not altogether of an explicit and satisfactory nature. Capt. QUAYLE-JONES has remedied this defect."—*Army and Navy Gazette*.

On Outpost ; What to do and How to do it 0 6

"Never have we met with a more clever work on Outpost Duty."—*Broad Arrow*.

All Military Books are obtainable Post Free from the Printers, Gale and Polden, Brompton Works, Chatham.
